

CESSNA/AEROFLASH LAMP SEALED BEAM

Actual Size

Direct replacement for Cessna PN's C17312-3 (12V) and C17312-1 (24V) or Aeroflash PN's 40-0028 & 40-0003. These long life halogen lamps offer greater light output with increased life and reduced costs.

Heavy filament construction and improved manufacturing techniques produce a more efficient rugged and economical lamp for aircraft use. These special design and manufacturing techniques produce a lamp far superior to any previously offered. They will increase your customer satisfaction and your sales.
